

The new and intuitive solution to retrieve, manage, publish and present documents in a format everyone is familiar with

KC Book is a new and intuitive solution to retrieve, manage, publish and present documents in a format that everyone is familiar with. KC Book allows business people to select individual documents and merge them into a single compound document. With key features such as thumbnail view, text searching, text resizing and printing, KC Book provides users with the ability to handle complex document files effortlessly.

KC Book forms part of the Kcenter document management and workflow solutions suite.

Product Features

- Works with any documents, irrespective of file type.
- Processes each to a portable format.
- Merges all documents together in the requested order, with each document forming a chapter.
- All pages being oriented as portrait.
- Uses industry standard flash technology.
- Provides thumbnails to assist page content recognition
- Displays two pages of the book at any given time.
- Pages can be turned using icons or by dragging a corner of a page (top or bottom)
- Icons that direct the user to the beginning or the end of the book.
- Provides resizing through a Zoom in/out feature.
- Pans up, down, left or right on zoomed pages.
- Provides the ability to print single, selected or all pages of the book.

Planned Features

Annotation with the ability to store annotated versions with the original.

Index View providing "Chapter" links to each document within the book.

KCBook Toolbar

Page Nav

The ability to navigate to a specific page.

Search

A search box that allows the user to locate words or phrases within the book, highlighting where they are present and allowing the user to easily navigate to each incidence.

Rotation

Icons to rotate right or left to aid the viewing of pages that are landscape in format e.g. spreadsheets.
